 Tay Ninh, Viet Nam

### SUMMARY

---

I am an architect and freelancer who has been involved in the industry. My specialties are in the areas of interior and exterior design, architecture, and arts. I am confident in my ability to come up with ideas, arrange functional spaces logically and scientifically, as well as choose materials that are suitable for customers' needs while still meeting the aesthetic requirements of the project.

### EXPERIENCE

---

#### Internship

##### Trung Hau Group

 06/2019-07/2019

- Learning how to develop detailed drawings.
- Supporting the development of detailed drawings for a factory.

#### Freelancer

 04/2021-Present

- Discuss the project's ideas, objectives, requirements, and budget with the client.
- Consulting with the client about the project.
- Creating 2D drawings for the project, and determining which types of architecture are the best choice for the area.
- Creating 3D perspective from 2D architecture plan and rendering.

#### Architect

##### Hong Phuc Company

 04/2022-Present

- Developing ideas for the layout of the floor for a construction project based on the needs of customers.
- Consulting materials suitable for customer's needs as well as meeting the aesthetic requirements of the project.
- Creating interior and exterior renderings of the project.
- Developing detailed architectural drawings.
- Collaborate with external consultants, contractors, and suppliers to ensure successful project execution.
- Participate in client meetings and presentations, effectively communicating design concepts and addressing client feedback.
